

2019-2020 Professional Grooming and Bathing Pricing Estimates- Dogs

Glossary of terms:

The terms and prices in this list all include a thorough bath and conditioner, anal glands, drying, and toenail clip. The prices are all inclusive. Your pet will not require a combination of services.

Bath and Comb- generally used to describe bathing and completely combing drop cost breeds in full cost such as Maltese, Shihtzu, Silky Terriers, etc.

Clean up bath-refers to a bath and towel dry only with ear cleaning and anal glands. Priced by size not by breed, not listed here. Generally requested if boarding a short coated breed with NO undercoat such as Vizla, Doberman, Pitbull, etc

Full Service Bath- refers to a basic bath and light brush out and blow dry. Good for smooth hair breeds such as Pointers or in between grooming

Clip down- refers to using clippers with blades to clip coat one length all over. A “clipdown” will leave the coat NO MORE than 1” long.

Pattern- refers to using a combination of clipping, scissoring, etc to trim a dog into its traditional breed pattern (as opposed to 1 length all over) such as “ a Cocker Clip” or “ a schnauzer clip”. Generally terriers and spaniels and setters have traditional patterns.

Pro Groom- referees to the complete undercoat removal with any undercoat breed getting a bath. Such as Golden's, Samoyeds, Shetland Sheepdogs, Labradors, etc. Anything with excessive undercoat that may need more than a “ light brushing”. Breeds that require pro grooming (excessive undercoat removal” may also ask for trimming.

Scissoring- any haircut longer than 1” is done by hand scissoring. Clip combs are used in some breeds to set length or remove bulk hair, however anything left over 1” must be hand scissored to finish trim. It is not possible to leave a coat looking even with only the use of a clip comb.

Glossary of terms:

The terms and prices in this list all include a thorough bath and conditioner, anal glands, drying, and toenail clip. The prices are all inclusive. Your pet will not require a combination of services.

Bath and Comb- generally used to describe bathing and completely combing drop cost breeds in full cost such as Maltese, Shihtzu, Silky Terriers, etc.

Full Service Bath- refers to a basic bath and light brush out and blow dry. Good for smooth hair breeds such as Pointers or in between grooming

Clean up bath-refers to a bath and towel dry only with ear cleaning and anal glands. Priced by size not by breed, not listed here. Generally requested if boarding a short coated breed with NO undercoat such as Vizla, Doberman, Pitbull, etc.

Clip down- refers to using clippers with blades to clip coat one length all over. A “clipdown” will leave the coat NO MORE than 1” long.

Pattern- refers to using a combination of clipping, scissoring, etc to trim a dog into its traditional breed pattern (as opposed to 1 length all over) such as “ a Cocker Clip” or “ a schnauzer clip”. Generally terriers and spaniels and setters have traditional patterns.

Pro Groom- referees to the complete undercoat removal with any undercoat breed getting a bath. Such as Golden's, Samoyeds, Shetland Sheepdogs, Labradors, etc. Anything with excessive undercoat that may need more than a “ light brushing”. Breeds that require pro grooming (excessive undercoat removal” may also ask for trimming.

Scissoring- any haircut longer than 1” is done by hand scissoring. Clip combs are used in some breeds to set length or remove bulk hair, however anything left over 1” must be hand scissored to finish trim. It is not possible to leave a coat looking even with only the use of a clip comb.
